Cemetery Trustee Meeting

Place: Baldwin/Catholic Cemetery

Date: May 11, 2016 – 8:00 am

Present: Ron Connary, Charles Goulet, Terry Place and Ed Poulin

Agenda:

Called the meeting at 8:05 am. Ron made the motion and Terry 2nd it.

Walked with Ed Poulin the areas we want landscaped so the mowers have a better area. Also the work will make the area look better and will be a safer place the walk/work.

The work includes removing a tree/roots and the blackberry bush roots along the northern and western boundary. Then landscaping the boundary to remove the step down. This will make the area look better, safer to walk and smoother for the mowers.

At Center Cemetery we showed Mr. Poulin what we wanted to do with the Willey lot boundary. It has a cement block boundary that has falling down. It's been like that for years and we are afraid someone will get hurt. We want the cement blocks removed and filled back with gravel and loam. Make the area sloped so a mower can mow. The northern road might have to be raised to make a better transition.

Meeting adjoined at 10:50am
